Allowable Subject Matter

Claim 8 is allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest a method for producing a cellulose fiber product resistant to biological degradation and resistant to fiber length degradation during refining, wherein a cellulose fiber is treated with a biocidally effective amount of 0.01-0.25% copper by weight of dry fiber and 0.1-2.0% by weight of dry fiber of a compound selected from the group consisting of didecyldimethylammonium chloride, didecyldimethylammonium bromide, and mixtures thereof.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Argument

Applicant's arguments filed October 10, 2006 have been considered.

Claim 8 now incorporates allowable subject matter indicated previously and claims 10-13 are now cancelled, rendering moot the rejection under 35 U.S.C. 103(a) over Pasek (WO 98/05206) in view of Applicant's disclosure of known prior art, set forth previously.
